Product overview

Aptem develops pioneering SaaS technology solutions to enable skills development and employability. Over the past eleven years we have created innovations that unleash new levels of efficiency, productivity, and personal growth.

Aptem Employ is a pioneering system that combines powerful case management functionality with a self-service jobseeker portal. The combination of these two things gets people back into the workplace quickly:

1. Providers can support more jobseekers into employment

2. Jobseekers can quickly and easily find a new, often better, role

3. Funders can see the value being delivered by their supply chain

What can you expect from Aptem Employ?

✓ **No additional costs:** The Aptem Employ solution supports DWP contracts, and your individual workflows with no additional costs or time incurred for customisation or ongoing improvements. It is ready to go now

✓ **Customisable:** You can flex the system independently and easily, without the need to bring in expensive consultants

✓ **Continuous improvements:** We publish a roadmap containing all the things we will be delivering to improve and grow the system and support your delivery. This is added to on an ongoing basis, to meet our client requirements

✓ **Up and running in 30 mins:** Our system is intuitive and user friendly. It has been built for non-technical coaches and jobseekers. For coaches and jobseekers who want to make the most of the system, we run 30 min daily training sessions

✓ **Self-service for the job ready:** Aptem Employ's integrated self-service jobseeker portal puts jobseekers at the heart of their search. They can create CVs, take eLearning modules, and have access to thousands of aggregated job vacancies – perfect for low and mid-skilled jobseekers
